

When game starts, it shows current player's hand in the bottom and current color at top in the background. It also shows current card in the middle and a pile at right. Initially it's player 0's turn to move.

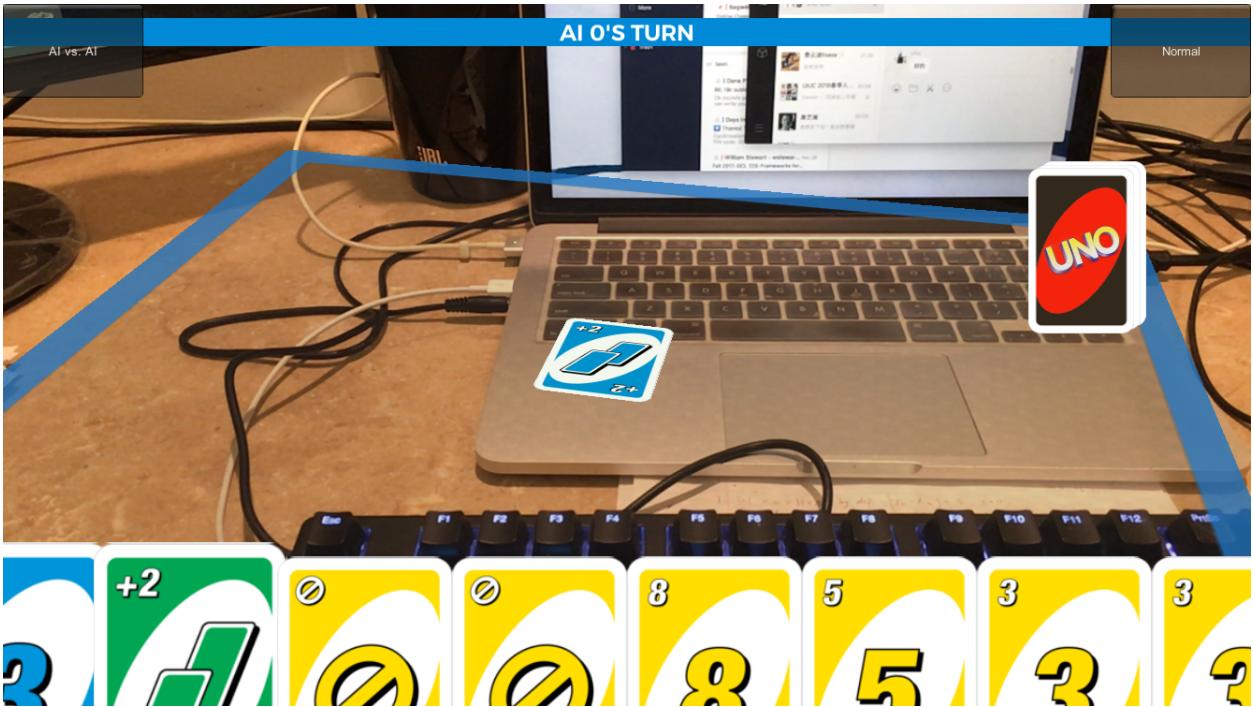

(Wild card): opens color picker menu

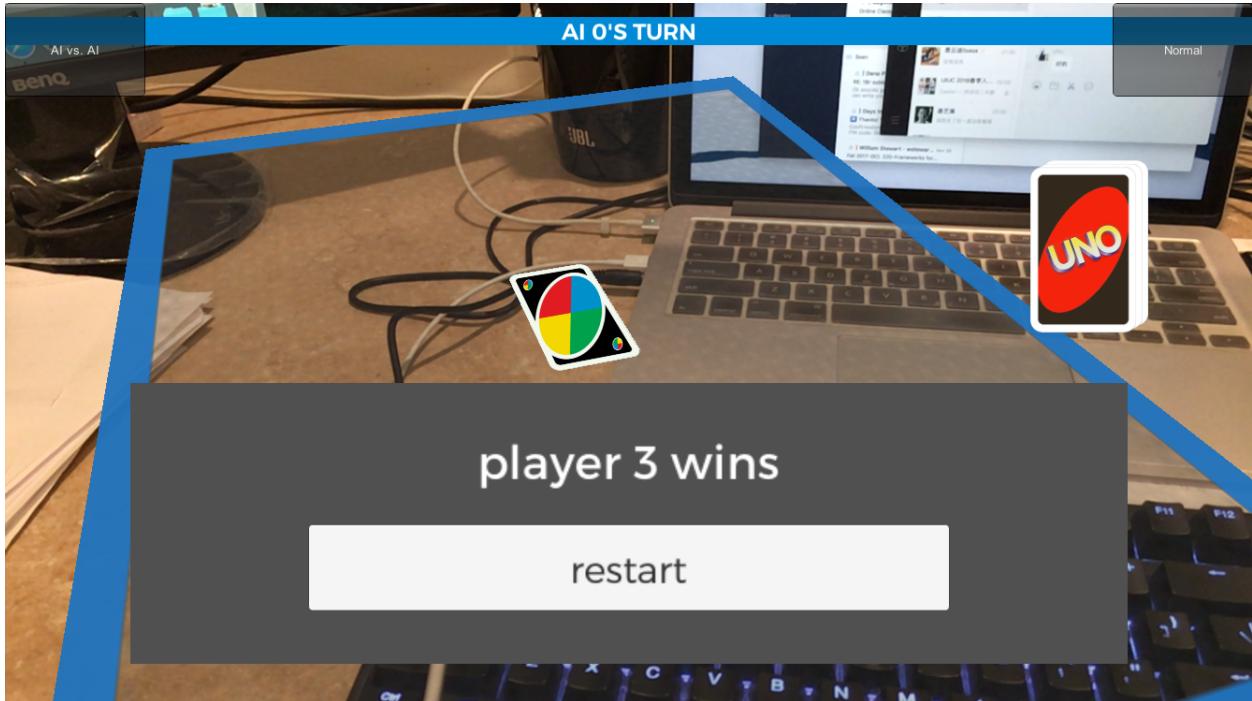

Player 0's turn. Cards are sorted by color then by value of cards. Only the cards that can be played will be scaled up

AI's turn. Controlled by AI script

Shows player win.

Click the button at top-right to toggle AR/Normal board, AR shows current card in AR plane.

Click the button at top-left to toggle “Player vs. AI”/“AI vs. AI” game

Short video of AI vs. AI.
